

COLOR SORTING AND RAINBOW FUN

Directions:

Print the color sorting mat on the next page. Place Fruit Loops in a bowl next the mat. The child can place each colored fruit loop into the matching color circle.

After the cereal is sorted, provide the child with a pipe cleaner and two marshmallows. Poke one side of the pipe cleaner into the marshmallow. The child can lace the Fruit Loops on to the pipe cleaner. When done, bend the cereal and pipe cleaner to create a rainbow shape and put another marshmallow on the other end.

Enjoy!

Adult supervision required.
