

LOCH NESS WORD SEARCH

The Loch Ness Monster or Nessie may be a creature that lives in the Scottish Highlands. Since 1933, People have said it is a big animal with a long neck and one or more humps that come out of the water. There is very limited evidence that the Loch Ness Monster is real. Some people claim there are pictures or sonar that prove the Loch Ness monster is real. Scientists think that it is not real and that people are mistaken about what they have seen.
