November 8, 2023

Scattegories is not just a game; it's a brain-tingling event that brings out laughter, competitive spirits, and, sometimes, the most hilarious of debates. The crux of this fast-thinking categories game lies in its simple premise: can you outsmart and outthink your friends and family under the pressure of a ticking clock? The phrase "Scattegories Categories" is not just a tongue twister; it's a creative playground where the quick-witted triumph and the rest are left chuckling at their own absurd answers.

## How to Play the Game of Scattegories

---

The original game of Scattegories is straightforward yet captivating. Each player receives a pad of player score sheets, and a key letter is determined by rolling a 26 letter alphabet die. If you do not have the die, you can use an app to randomly select letters or put the 26 letters in a hat to randomly pick the letter. The timer, often a 2-minute sand timer, is set, and the

race begins! The goal is to come up with a unique answer for each category on the list that starts with the chosen key letter. Sounds easy? Well, the catch is that your answer must be unique, earning you points only if no other player has written it down. The first player to fill their sheet before the sand slips away can claim quick-witted victory.

## **Elementary School Categories**

---

### **Scattegories Categories: Fun On The Farm**

---

1. Farm animals
2. Colors of tractors
3. Things in a barn
4. Types of crops
5. Farm sounds
